## Quality certificate for Fi simplex atomizers

### Definition

The following statement is only valid for Fi series 9 simplex atomizers with spray patterns S, SF, H and HF which originate from our company and which are specially developed for the use in oilburners.

### Quality statement

- Each individual Fi simplex atomizer has been function tested on our test stands to ensure correct spray characteristics and operation.
- Quality, technical data and extent of delivery are in accordance with the details on our acknowledgement.
- The relevant standards as well as the rules and regulations of the European Community are observed.
- Our quality assurance system conforms to DIN EN ISO 9001.
- We hereby declare that Fi simplex atomizers are suitable for the use with fluid Heizöl DIN V 51603-6 EL A Bio 5.
